# PROBLEM UNDERSTANDING

---

- 01** Problem Statement
- 02** Background & Motivation
- 03** Solution Coverage
- 04** Core Objective & Functionality
- 05** Key Statistics
- 06** User Pain Points

# PROBLEM STATEMENT ○

People often face barriers when exploring or pursuing sports. Many lack awareness of various sports, their rules, professional pathways, and relevant events, which creates hurdles in cultivating and sustaining an interest in sports. This issue is exacerbated by limited accessibility and recognition, especially in countries where sports literacy and participation are low.

# BACKGROUND & MOTIVATION

## 01 IMPORTANCE

Betterment of the current scenario will enhance the quality of sports, which will help in gaining an audience, consequently more investors and funding to sports. The national image of our country in sports will improve significantly. Individual talented people will face less barriers to pursue their career in sports. It will enhance the overall physical and mental well-being of such a huge population.

## 02 INSPIRATION

The recent performance of India in the Paris Olympics where we won only 6 medals including no gold and ranked 71 out of 84 countries which won at least one medal. There are no significant platforms to increase people's awareness about sports.

## 03 IMPACT

We expect to bring a change in the ideology of people about the sports industry, teach them about how a sport operates and brief them about the rules and regulations of sports. It will enhance their participation in sports and increase the demand of every sport and one day we will lead in each and every one like we currently lead the world in cricket.

# SOLUTION COVERAGE

Through our technology and Design driven interface, we will address the issues of low sports literacy, lower audience of different sports, a lack of general awareness among people about sports, the athletes not getting the recognition they deserve, and the difficulty in getting updates about different sports. We will create different sections and sub sections for addressing different problems which will improve the user navigation to the required portion and also improve the overall user experience and user engagement of the platform.

# CORE OBJECTIVE

To promote sports literacy and foster a genuine interest in various sports, increasing public participation and cultivating an audience that appreciates and supports sports. This platform aims to elevate sport's role in society and build a well-informed audience passionate about various sports.

## CORE FUNCTIONALITY

- Rules and regulations briefing of different sports and knowledge of the required equipment.
- Daily news and updates about sports.
- Different sections for the best athletes to provide them the recognition they deserve.
- Career paths and processes required in a simplified and dignified manner.
- Updates about the latest events and tournaments.
- Discussion Forums for enhanced engagement of the user.

# KEY STATISTICS

- India has only won 41 medals in 25 Summer Olympics since 1900 and none in the Winter Olympics.
- Sports literacy in India is around 5.56%.
- Only 57 lakh people in India are directly involved in sports.
- Sports contribute merely 0.1% to India's GDP.

# USER PAIN POINTS

- Lack of access to a wide range of sports.
- Societal and financial pressures for those pursuing a sports career.
- Talented youth often forced to quit sports for stable employment.
- Limited recognition for deserving athletes.

# REQUIREMENT GATHERING

---

- 01** Identifying Stakeholders
- 02** Quantitative Analysis  
(User Testing & Evaluation I)
- 03** Interviews
- 04** User Mental Model
- 05** Mind Map

# STAKEHOLDERS

- 1.Sports Enthusiasts** - Users aiming to deepen their knowledge and skills in various sports.
- 2.Aspiring Athletes** - Users seeking guidance and support for a career in sports.
- 3.Parents & Guardians** - Users interested in supporting and encouraging their children's sports development.
- 4.Educators & Coaches** - Users providing sports education and training.
- 5.General Public** - Users exploring and learning about different sports for general knowledge and personal interest.
- 6.Corporate Sponsors** - Investors interested in understanding sports growth trends and opportunities.

## INTERVIEW #1

"We at the Sports-pedia Team interviewed many aspiring individuals. This is Josh , an athlete at the local gymkhana. Lets see what he has to say in this matter....."

Welcome, Josh! Thank you for joining me today. I understand you've faced several challenges when it comes to sports knowledge. Can you share some of those problems with us?

**Josh:** Thank you for having me, Mark! Absolutely, my experience with sports knowledge has been quite a journey. Before I discovered Sports-pedia, I struggled with multiple issues. For starters, I often felt overwhelmed by the sheer volume of information out there. Every sport has its own set of rules, terminologies, and histories, and I found it hard to keep track of them all.

**Mark:** It sounds like Sportspedia really tailored its offerings to meet your needs. Were there any other problems it helped you address?

**Emma:** Absolutely. One major issue was staying updated with live sports events. I would often miss out on important games or updates because I didn't know where to look. Sportspedia's **live updates** feature solved that problem. I can now follow games in real-time, which makes me feel more connected to the sports community.

## INTERVIEW2

## INTERVIEW #2

"We at the Sports-pedia Team interviewed many aspiring individuals. This is Sophie , a student at IIITD. Lets see what he has to say in this matter....."

Welcome, Sophie! Thanks for joining us today. I understand you've encountered some unique challenges when it comes to sports knowledge. Can you share what those challenges were?

**Sophie:** Thanks for having me, Jake! Sure, my journey with sports knowledge has been quite rocky. Initially, I had a hard time keeping up with the different sports seasons and schedules. I'd often miss out on games or events because I didn't know when they were happening.

That sounds frustrating! Did you find it difficult to follow specific sports or leagues?

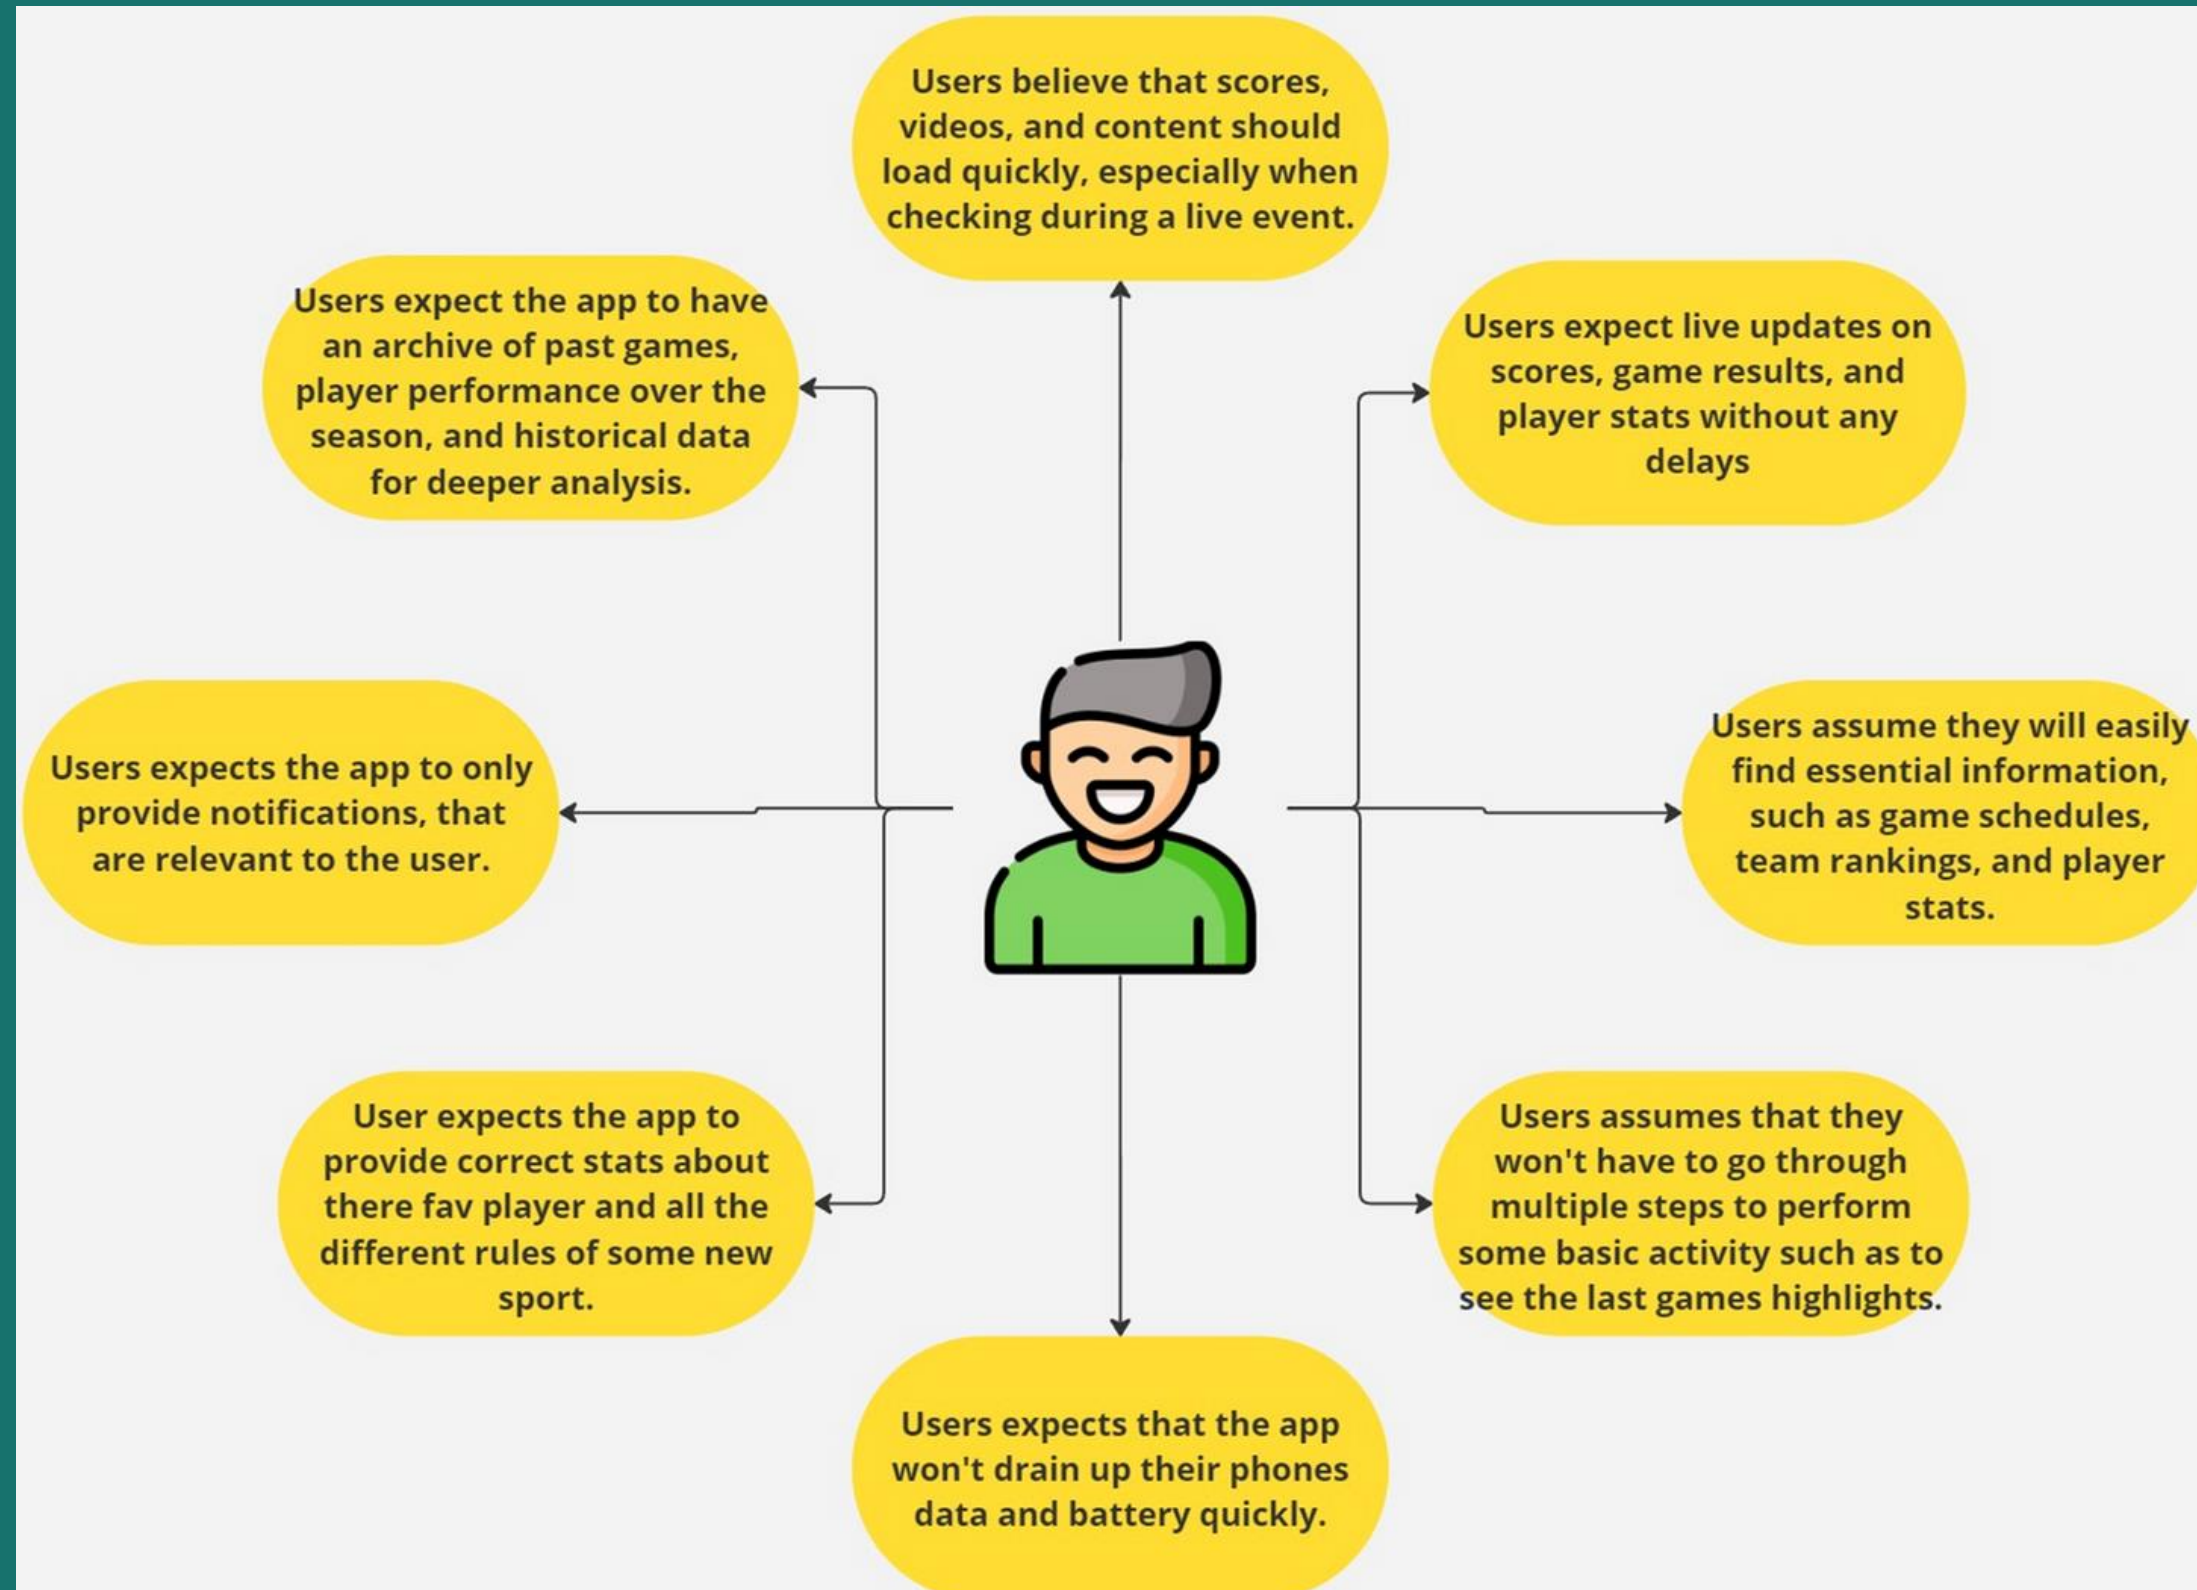

**Sophie:** Absolutely! I'm a huge fan of baseball, but I also wanted to learn about football and basketball. The problem was that each sport has its own schedule, and trying to keep track of everything was overwhelming. I'd end up confused about which games were on and when.

**Jake:** That's understandable. Did you try any other resources to help with this before discovering Sports-pedia?

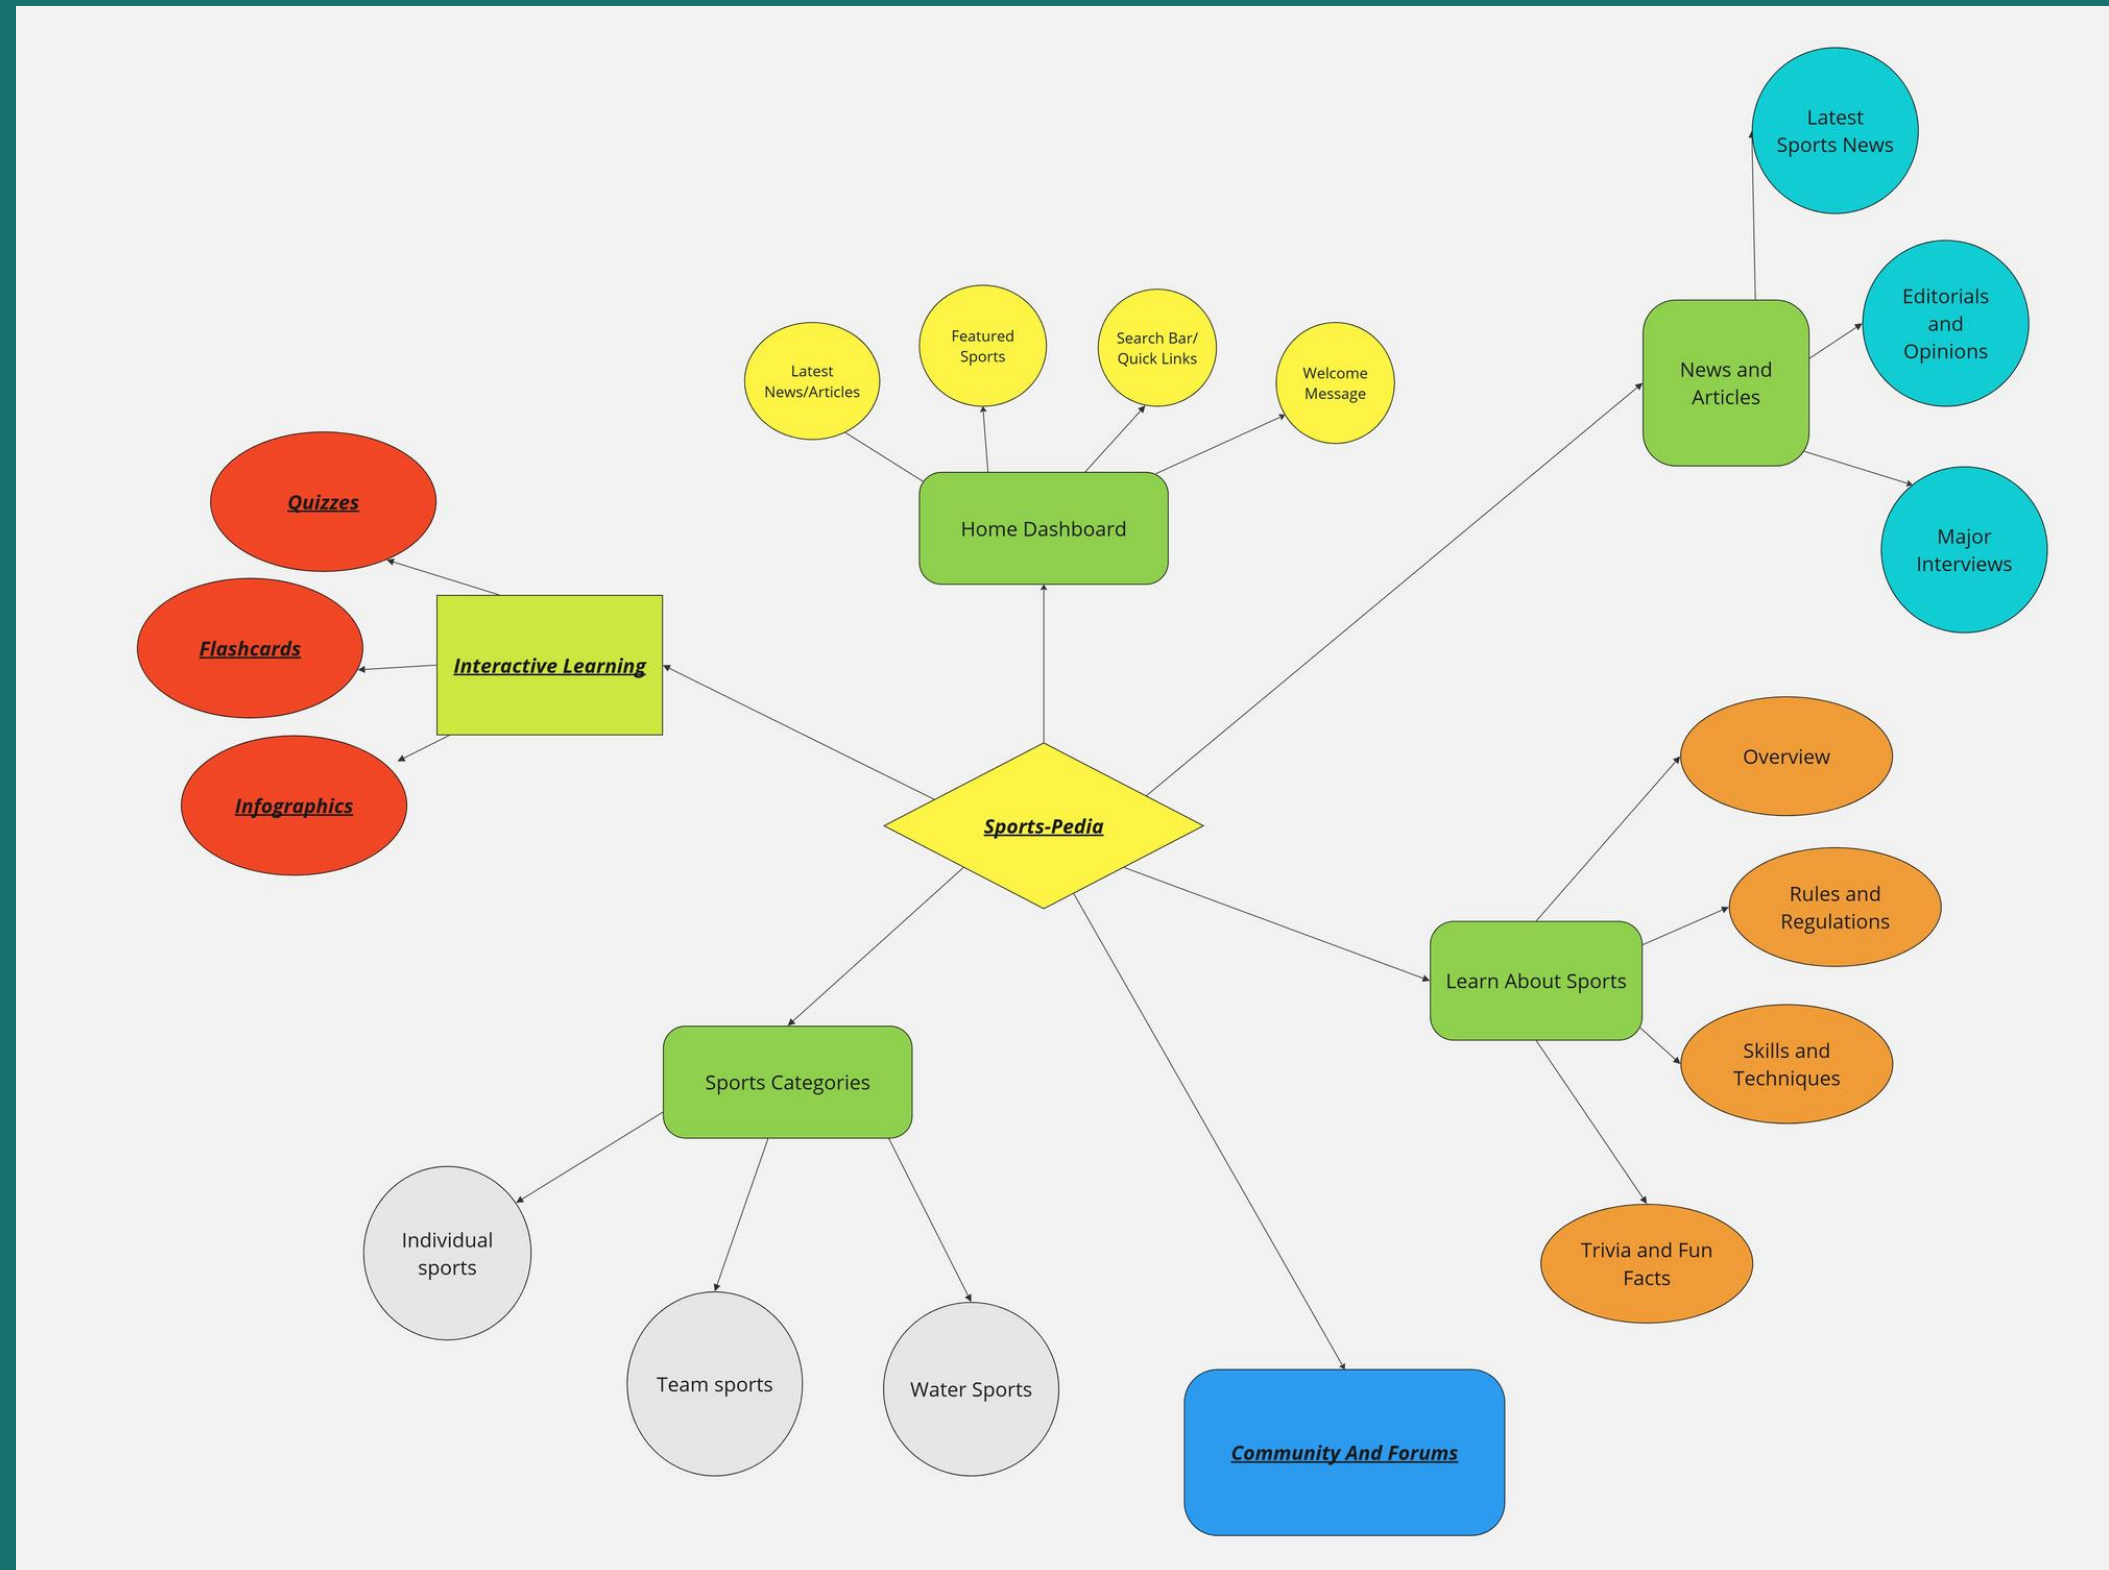

**Sophie:** Yes, I tried using multiple sports apps and websites, but they were either cluttered with ads or not user-friendly. I would spend more time navigating the app than actually learning about the sports. It was discouraging, and I often ended up giving up.

## ARYAV

- 17 years old
- High Schooler
- State Level Badminton Player

### ABOUT THE USER

Aryav is an aspiring badminton player. He has been training since primary school, and has achieved a lot of accolades. He wishes to pursue a career in sports and eventually represent India in international competitions.

### QUALITIES

- Athletic
- Active
- Curious
- Competitive
- Humble

### PROBLEMS

- Issues in finding news on tournaments
- Unable to get proper career advice
- Learning new advancements and changes in the sport
- Finding educational videos that help him further improve his skill

### GOALS AND NEEDS

- To be able to easily find information about his sport
- To get career advice
- To become better at the sport and achieve international success

# PERSONA1

# PERSONA2

## RAJEEV

- 45 years old
- Professional Coach

### ABOUT THE USER

Rajeev is a professional athletics coach. He has been in the sports industry since the past 20 years. Being a sport enthusiast and excellent teacher, he decided to take on the mantle of being a coach. His mentorship has produced multiple athletes.

### PROBLEMS

- Issues in finding news on tournaments
- Learning new advancements and changes in the sport
- Finding educational videos that help him further improve his skill
- Keeping track of recent sporting events
- Organizing and inviting other sport teams to participate in competitions

### QUALITIES

- Athletic
- Patient
- Communicative
- Experienced
- Goal Oriented
- Knowledgeable

### GOALS AND NEEDS

- To be able to easily find information about his sport
- To be able to find talented athletes
- To nurture and develop his youth
- To provide the correct resources

MONICA

- 22 years old
- Casual Tennis Player

ABOUT THE USER

Monica is a casual tennis player. She plays tennis as a hobby, participating in local tournaments among her friends. She is not the best at the sport, but always puts in the effort to become a better player. She plays the sport recreationally rather than professionally.

QUALITIES

- Casual
- Competitive
- Social
- Friendly

PROBLEMS

- Finding new people to play with
- Learning new techniques and skills
- Maintaining fitness
- Finding local tournaments to participate in

GOALS AND NEEDS

- To be able to find other casuals like her
- To have correct information while learning new skills
- To be to find more tournaments to play in

PERSONA3

DEREK

- 38 years old
- Sports Commentator and Enthusiast

ABOUT THE USER

Derek, a popular sports commentator, is known for his energetic style and deep insights. He brings excitement to every game with his engaging commentary, loved by fans and respected by athletes. In the future, Derek aims to mentor upcoming sports commentators and hopes to launch his own podcast, sharing his knowledge and passion for sports with an even wider audience.

PROBLEMS

- Trying to find reliable sports info.
- Being able to follow multiple formats and leagues of the same sport
- Ability to explore more sports
- Finding appropriate sport highlights
- Ability to go and rewatch older sporting events for knowledge
- Setting up a sport podcast for an even wider reach

QUALITIES

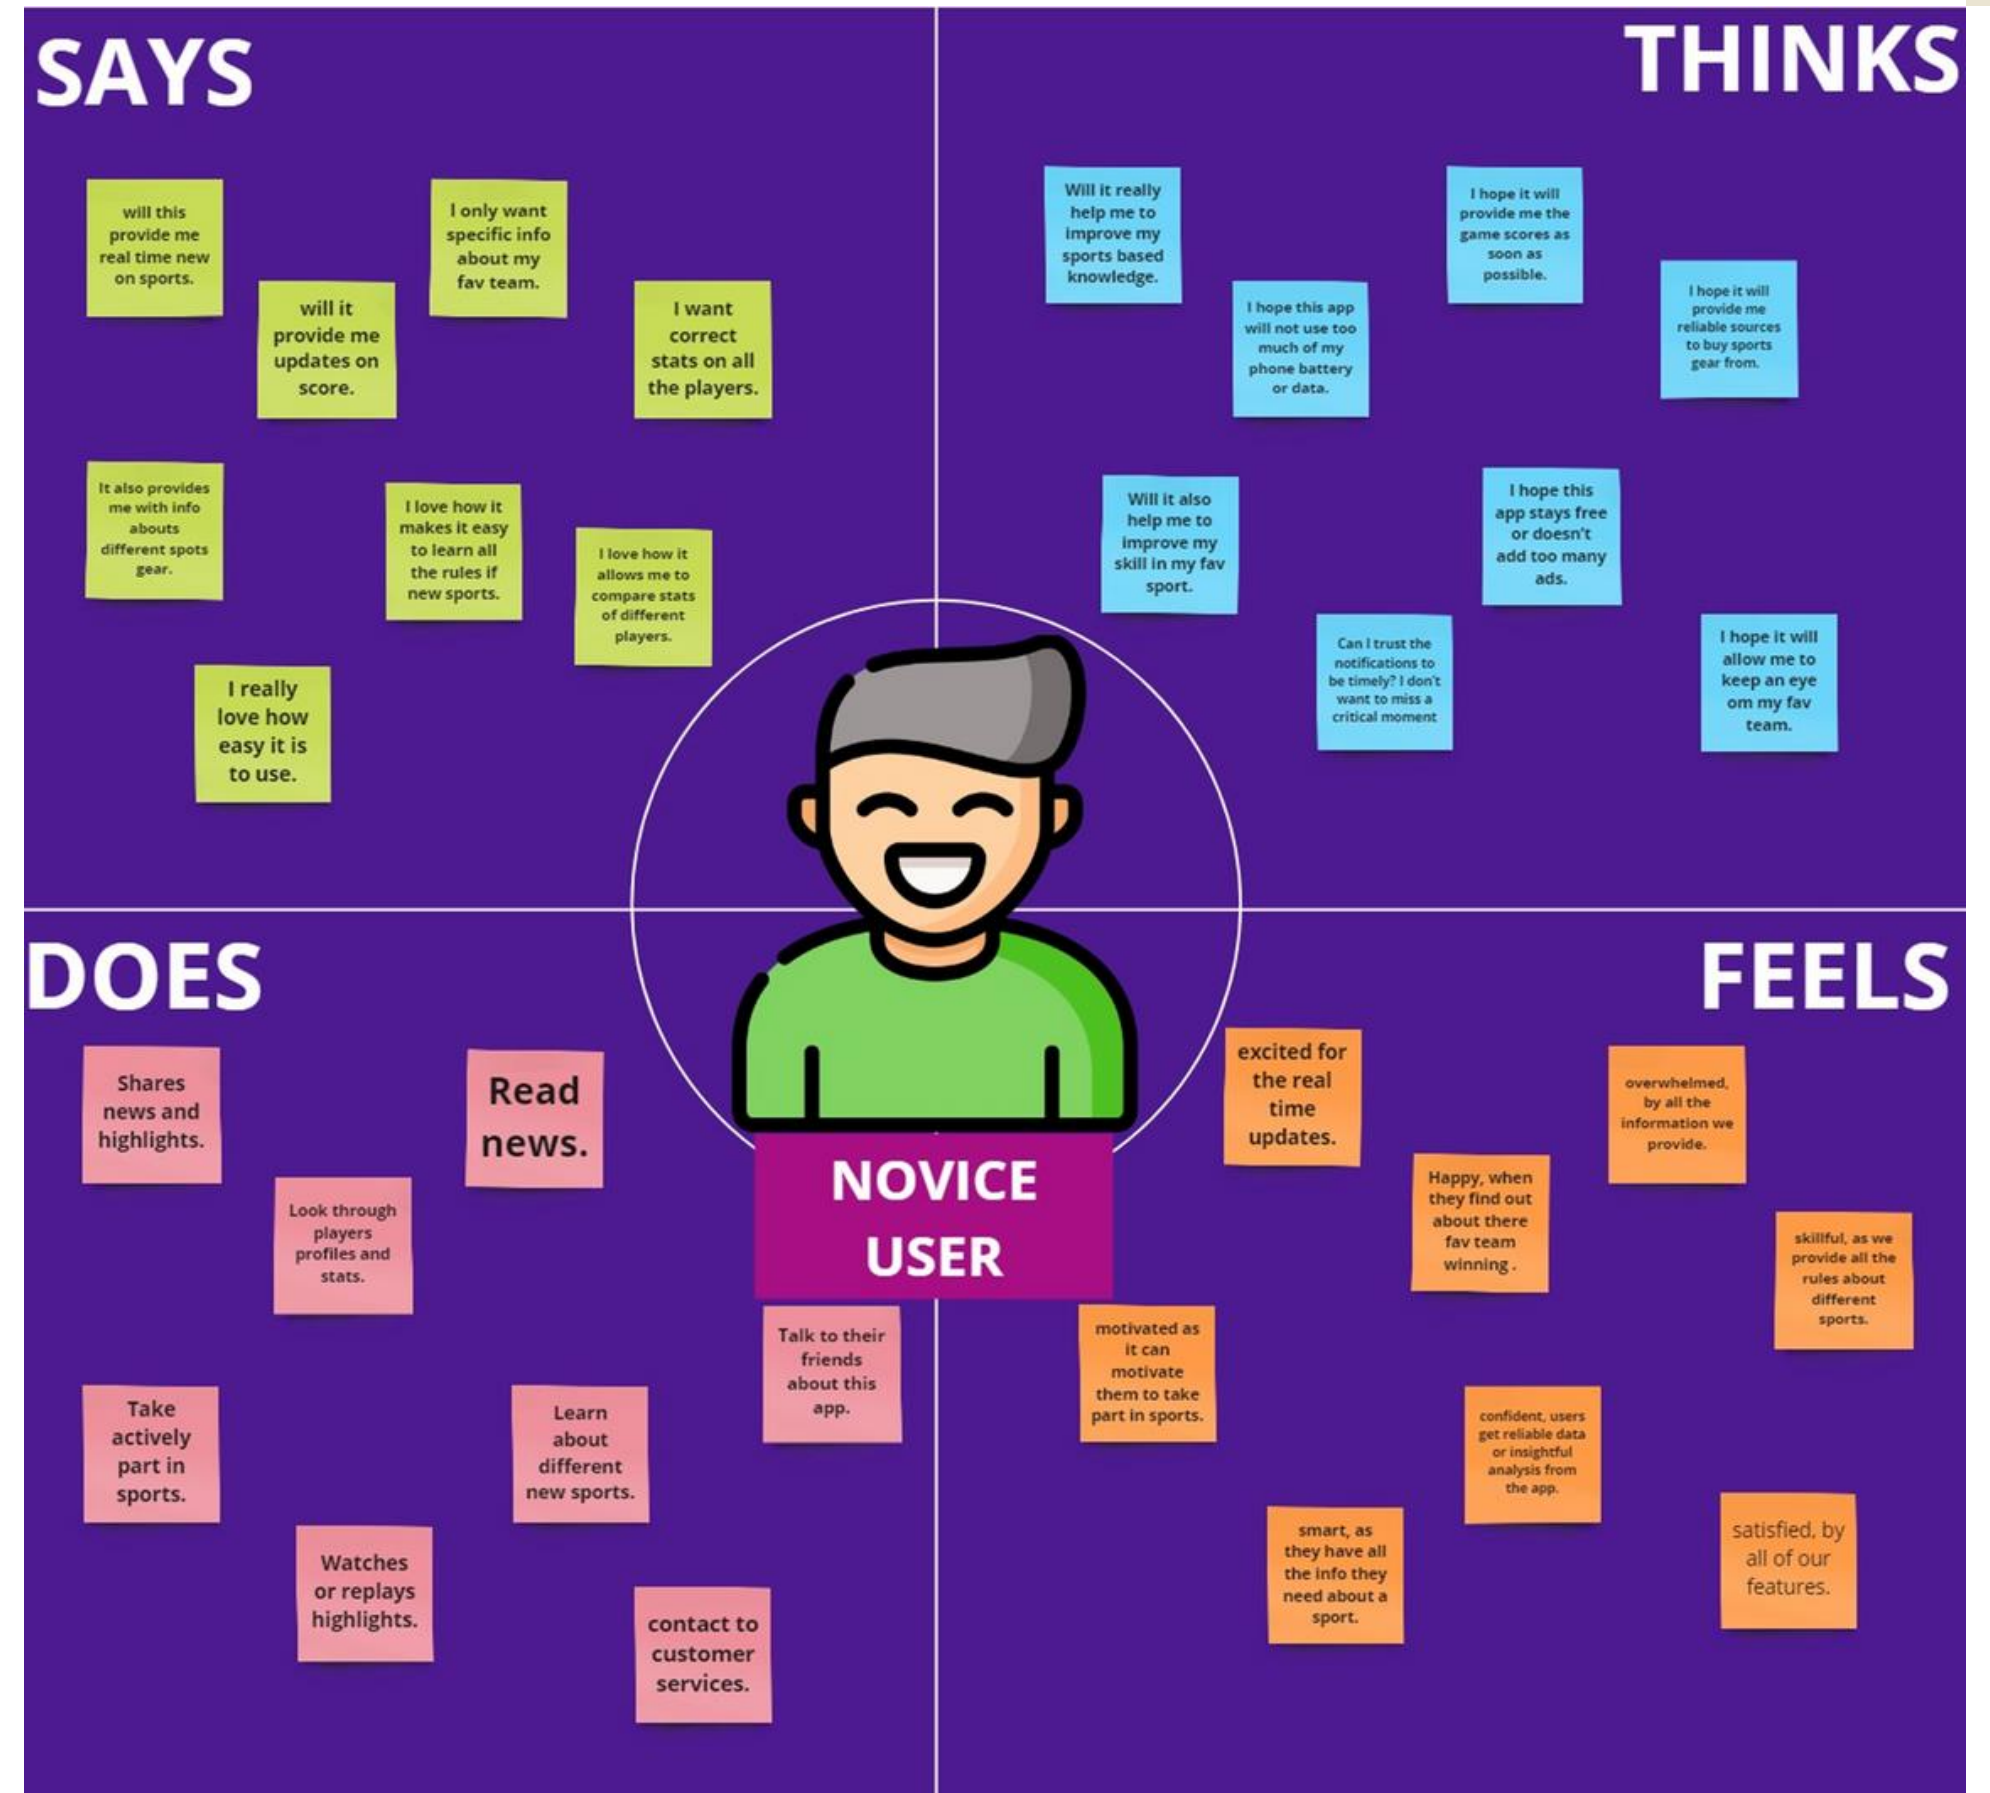

- Dynamic
- Energetic
- Enthusiastic
- Fair
- Knowledgeable

GOALS AND NEEDS

- A medium that provides him with reliable sports info
- To be able to launch a sport podcast
- To interview rising stars in the sport industry

# USER TESTING AND EVALUATION SUMMARY

## Quantitative Analysis

- Only 13% people found to be very familiar with the rules of different sports.
- Around 90% accepted that sports literacy is important.
- Major challenges faced by all includes complex terminologies, lack of resources, lack of guidance, time constraints and lack of exposure towards sports literacy.

## Initial Hi-Fi Testing

A big chunk of users was satisfied with the overall design, color scheme, fonts and texts but little cluttering was observed. Improvements was suggested like consistent font and color theme etc.

## Lo-Fi Testing

Lo-Fi Design set 1 was found to be better in terms of understanding. It was found visually appealing and more organized.

## Final Hi-Fi Testing

After implementing the improvements suggested by the users previously, we circulated the user evaluation and testing form again and found that the positive ratings improved and users found the design as improved, aesthetically pleasing, convenient to use and overall user friendly.

# LEARNING & REFLECTIONS

---

1. With this project we came to know the importance of repeated iterations and workflow.
2. We understood the importance of surveys and feedbacks, demerits of making flawed assumptions.
3. We got the opportunity to learn about collaborative tools like Figma, Miro, Google docs etc. effectively.
4. We learned to work in teams and how to utilize each other's skills effectively.
5. We developed an attitude to address social and technical issues.
6. We learned the importance of distribution of large project into small portions to manage them effectively.
