

IHCI First Project Submission

Rules

- Submit a Google Doc, NOT a PDF or a Google slide.
- Use the default fonts, line spacing, and font size unless specifically required in the assignment.
- After submission, the Google Doc will get automatically locked, so you won't be able to make any changes.
- Standard plagiarism rules apply.
- Your submission will not be considered for grading and feedback if you do not follow these guidelines.

Names of Group Members: Mrityunjai Poddar, Paarth Agarwal, Mayank Rajput, Preyash Prakash, Navrun Singh, Prajeet Kumar
Project Group Number: B_G15_P1
HCI Group No.: 15

Requirement Gathering

<Identifying stakeholders and their roles, challenges, requirements and expectations of users through tools like interviews, mindmaps, use-case diagrams etc.>

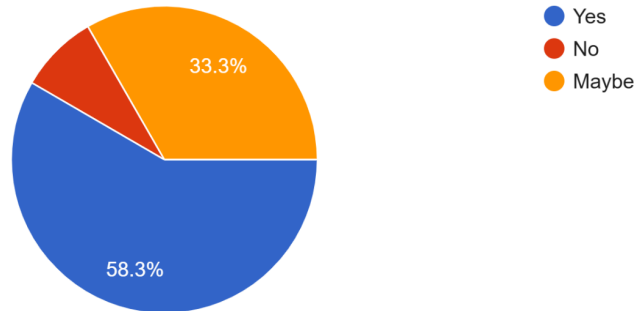

Stakeholders of the application are:-

- Sports Enthusiasts: For deepening knowledge and skills. The challenges they face are access to structured learning sources and detailed sports content available online.
- Aspiring Athletes: Seeking career guidance and development. They face challenges with limited guidance and training.
- Parents & Guardians: Resources for supporting children's sports development. They face challenges with limited knowledge of sports to guide their children.
- Educators & Coaches: Engaging materials for sports education. They face challenges with providing engaging learning materials and experiences.
- General Public: For those exploring and learning about different sports. They face challenges with limited access to resources on lesser known sports.
- Corporate Sponsors: Investors may be seeking insights into sports growth.

Survey Form - HCI PROJECT

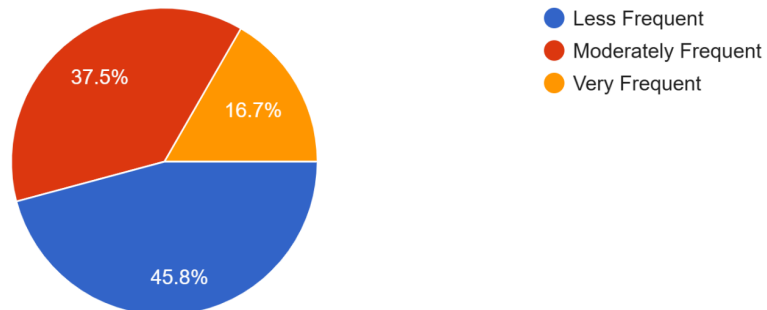

Do you think that sports literacy is important?

24 responses

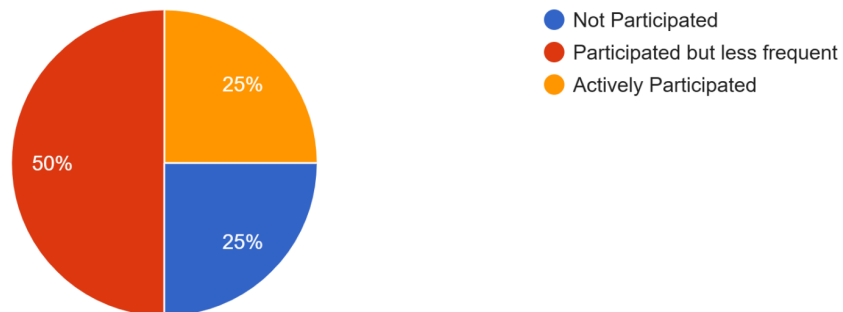

How frequently do you watch sports or read sports news?

24 responses

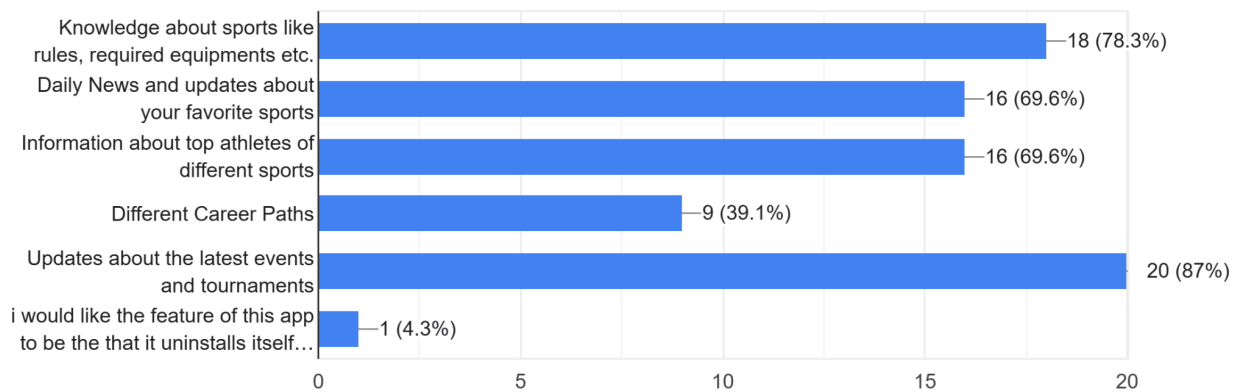

Have you ever participated in any sporting events or activities?

24 responses

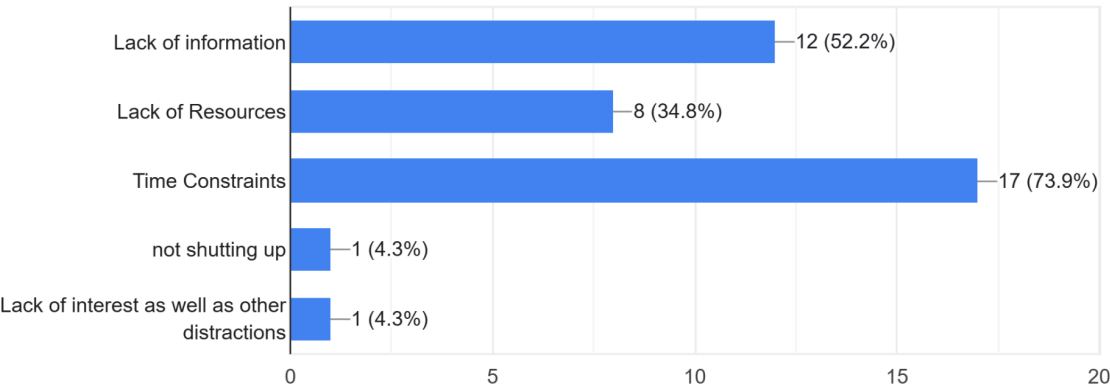

What features would you find useful in a sports literacy app?

23 responses

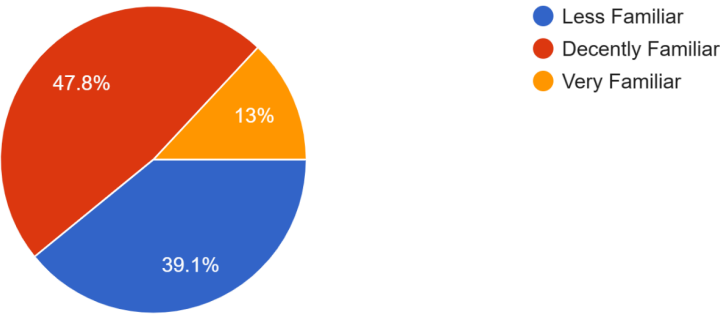

What's the biggest barrier to increasing your sports knowledge?

23 responses

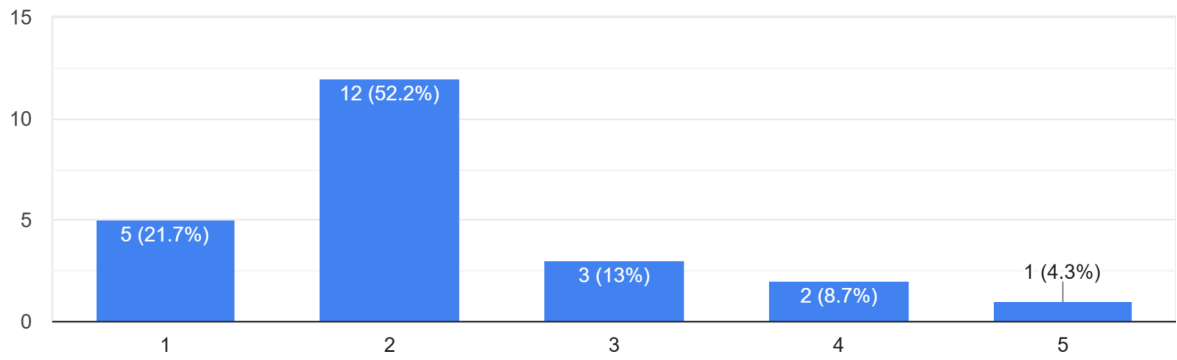

How familiar are you with the rules of different Sports?

23 responses

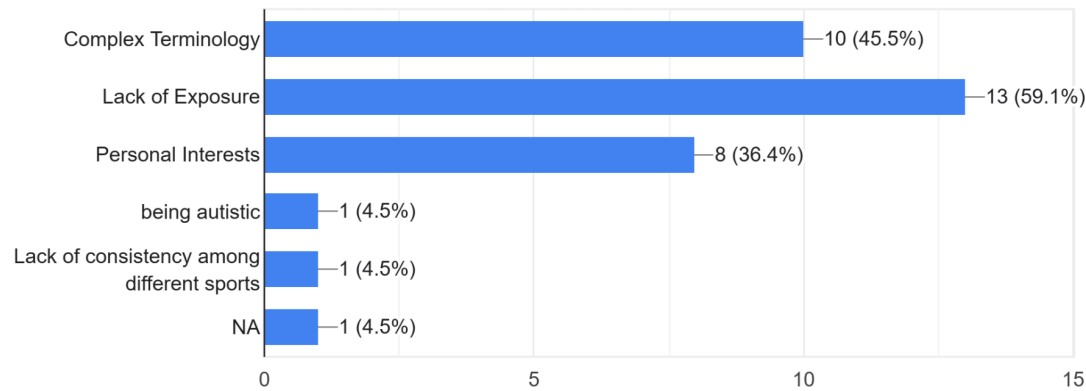

How would you rate your knowledge of historical Olympic moments and records? [Increasing from 1 to 5]

23 responses

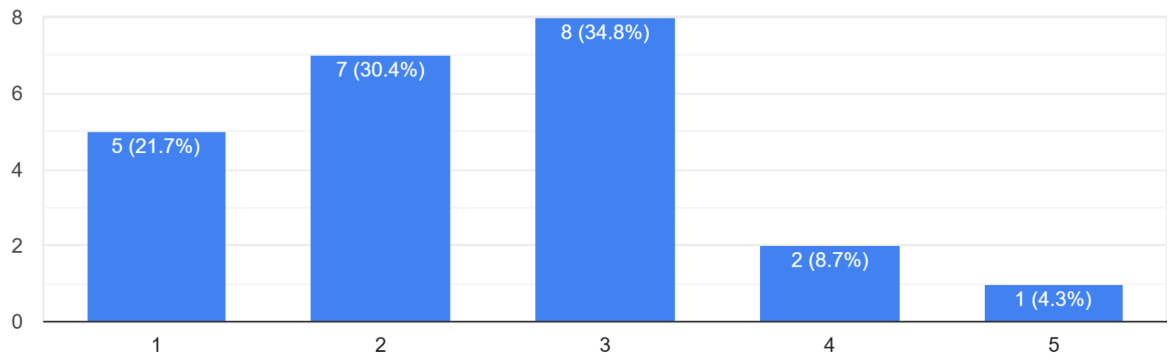

What challenges do you face in understanding the scoring systems of different Sports?

22 responses

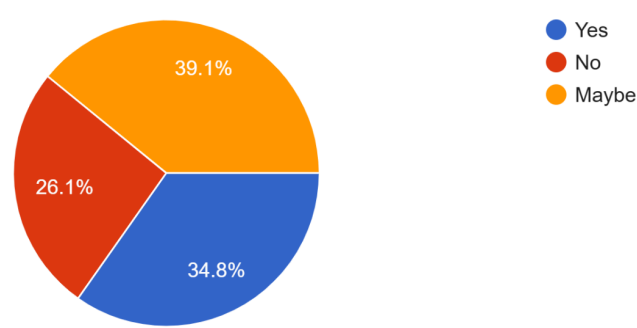

How accessible do you find information about lesser-known Olympic Sports? [Not accessible to Very much Accessible]

23 responses

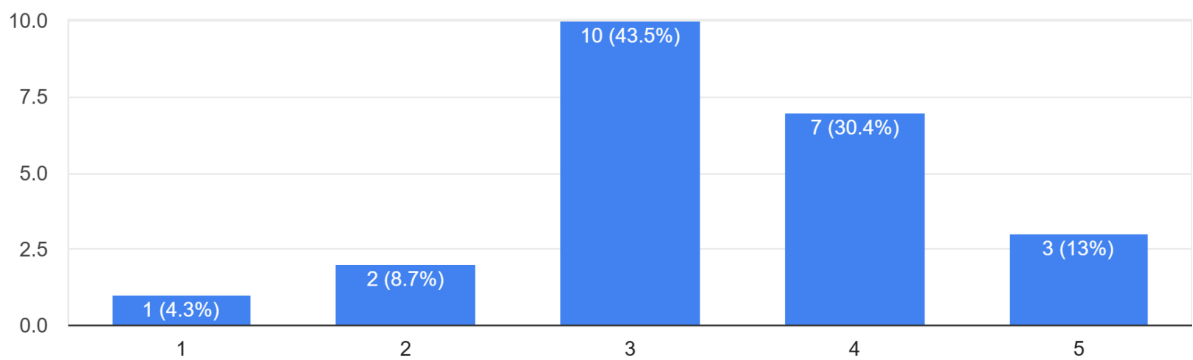

Do you feel that deserving athletes get the recognition they deserve?

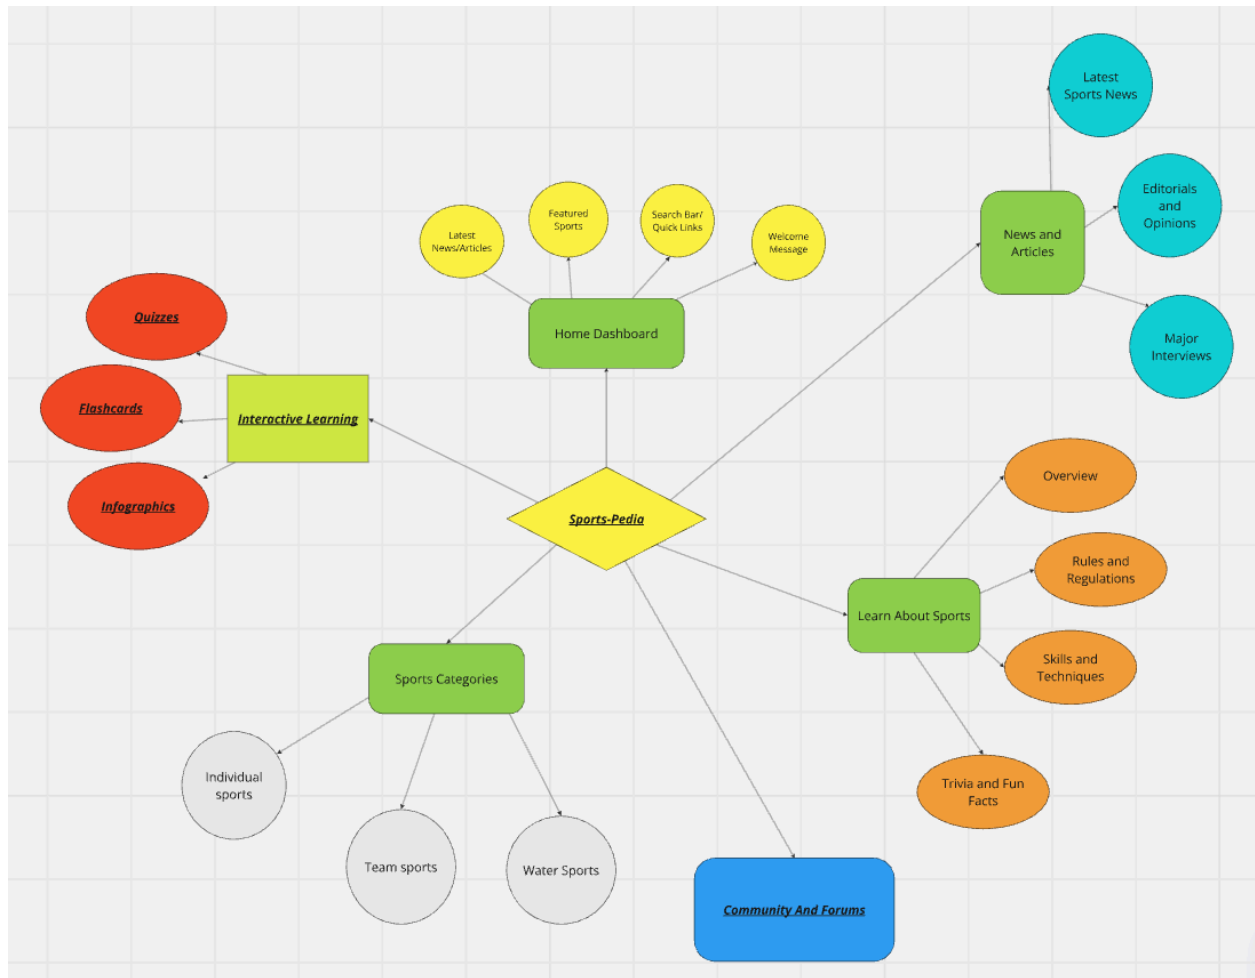

23 responses

How difficult do you think it is for an individual to pursue a career in the field of sports? [Easy to Very Difficult]

23 responses

Personas and Scenarios

<developing different user archetypes to understand and empathise with users through business and personal contexts>

ARYAV

- 17 years old
- High Schooler
- State Level Badminton Player

ABOUT THE USER

Aryav is an aspiring badminton player. He has been training since primary school, and has achieved a lot of accolades. He wishes to pursue a career in sports and eventually represent India in international competitions.

QUALITIES

- Athletic
- Active
- Curious
- Competitive
- Humble

PROBLEMS

- Issues in finding news on tournaments
- Unable to get proper career advice
- Learning new advancements and changes in the sport
- Finding educational videos that help him further improve his skill

GOALS AND NEEDS

- To be able to easily find information about his sport
- To get career advice
- To become better at the sport and achieve international success

Problem Understanding

<Elaborate on the proposed solution, its target users, and the specific requirements it would fulfil >

Our platform Sportspedia is an ecosystem designed to address the issues of sports literacy and active participation in sports. It aims to promote awareness, accessibility, engagement and participation. It offers interactive learning, community interaction, career guidance, and real-time updates, which will cater to a diverse audience, from beginners to sports enthusiasts, athletes, educators, and parents.

The core features of the platform are:-

- 1) Interactive learning modules -
 - a) Sports education - Clear explanations of rules, strategies and the required equipment.
 - b) Video tutorials - Step-by-step guides that will teach you basic techniques and strategies.
 - c) Quizzes and short games - Interactive tools to promote engagement and learning.
- 2) Personalized Learning Paths
 - a) Tailored Content: The content will be based on the user's preferences, interests, and skill levels.
 - b) Progress Tracking: Users can monitor their progress and earn badges or rewards.
 - c) Adaptive Skill Levels: The difficulty can be adjusted from beginner to advanced.
- 3) Community Engagement
 - a) Discussion Boards: A platform for users to connect, share, and ask questions.
 - b) Competitions & Leaderboards: Promotes friendly competition and engagement.
 - c) Localization: Multi-language support and region-specific content tailored to local sports and events.
- 4) Real-Time Sports News & Updates
 - a) Daily News: The app will give updates on sports events, athlete performances, and results.
 - b) Expert Analysis: Experts can give insights on trends and game strategies.
 - c) Notifications: The app will give personalized alerts for favorite sports and events.
- 5) Career Guidance in Sports
 - a) Career Pathways: The app will provide guidance on education, training, and professional opportunities.
 - b) Success Stories: Inspirational stories of athletes will be available under the athletes section.
 - c) Networking: Resources for mentorship and community connections will be provided in a separate section.
- 6) Events & Tournaments
 - a) Sports Events: Info on ongoing and upcoming tournaments, local and international will be displayed on the homepage itself.

The target users of the platform are:-

- Sports Enthusiasts: For deepening knowledge and skills. The challenges they face are access to structured learning sources and detailed sports content available online.
- Aspiring Athletes: Seeking career guidance and development. They face challenges with limited guidance and training.

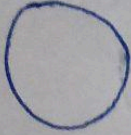

- Parents & Guardians: Resources for supporting children's sports development. They face challenges with limited knowledge of sports to guide their children.
- Educators & Coaches: Engaging materials for sports education. They face challenges with providing engaging learning materials and experiences.
- General Public: For those exploring and learning about different sports. They face challenges with limited access to resources on lesser known sports.
- Corporate Sponsors: Investors may be seeking insights into sports growth.

Specific requirements that our app will fulfill are:- Through our technology and Design driven interface, we will address the issues of low sports literacy, lower audience of different sports, a lack of general awareness among people about sports, the athletes not getting the recognition they deserve, and the difficulty in getting updates about different sports. We will create different sections and sub sections for addressing different problems which will improve the user navigation to the required portion and also improve the overall user experience and user engagement of the platform.

- Rules and regulations briefing of different sports and knowledge of the required equipment.
- Daily news and updates about sports.
- Different sections for the best athletes to provide them the recognition they deserve.
- Career paths and processes required in a simplified and dignified manner.
- Updates about the latest events and tournaments.

Low-Fidelity Testing and Testing Methodology

<Testing methodology to evaluate the lo-fi's (eg - interviews, surveys etc.) and observations>

LOFI TESTING

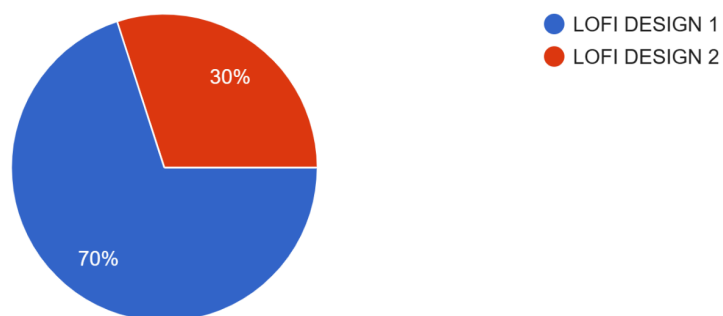

WHICH LOFI DESIGN WILL YOU PREFER?

10 responses

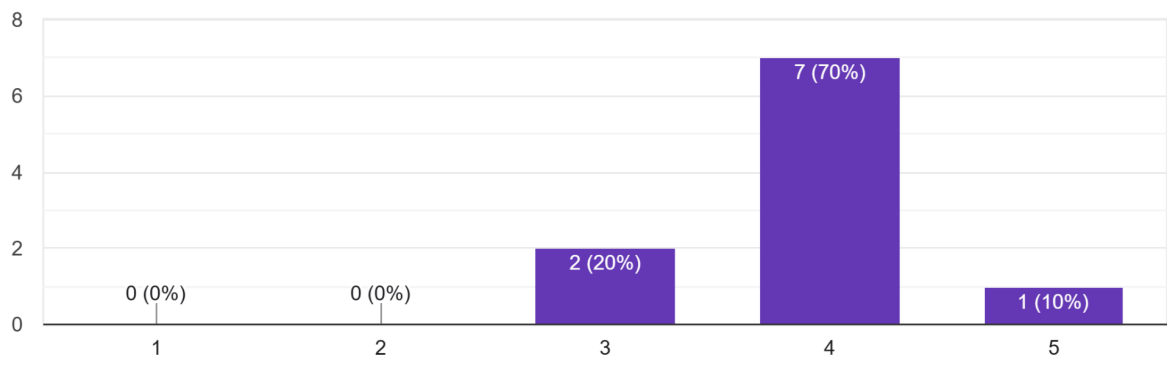

WHICH LOFI DESIGN IS EASIER TO UNDERSTAND?

10 responses

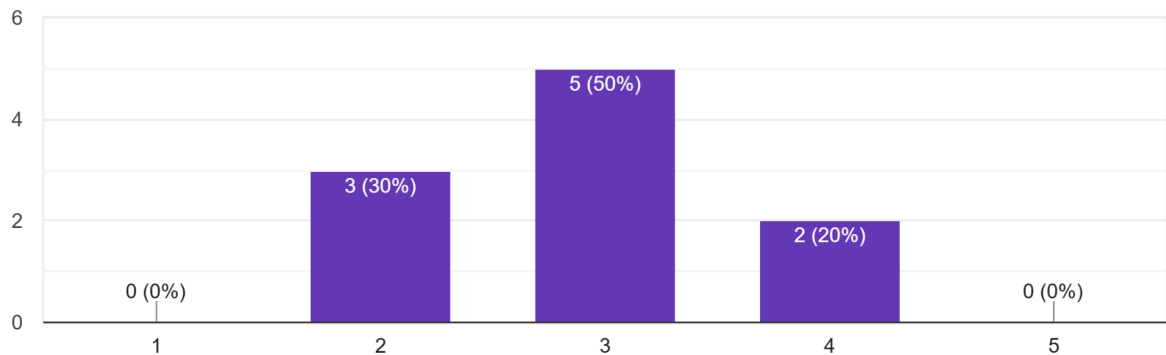

RATE LOFI DESIGN 1 (POOR-1 TO VERY GOOD-5)

10 responses

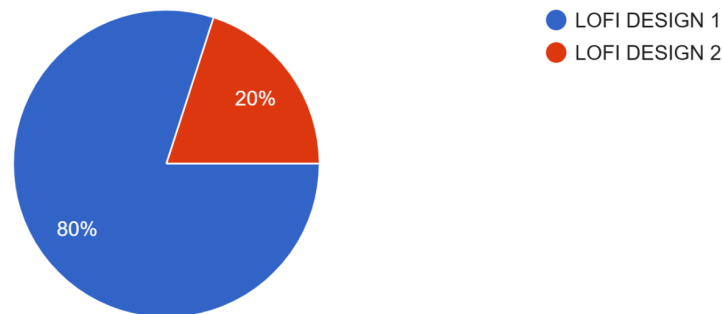

RATE LOFI DESIGN 2 (POOR-1 TO VERY GOOD-5)

10 responses

INFORMATION IN WHICH LOFI DESIGN IS LESS CLUTTERED AND VISUALLY APPEALING?

10 responses

Alternate Design

< Creating alternate design(s) and task flows based on the feedback and testing>

We have considered the different viewpoints of our team members and other potential users through interviews and forms and have made a few modifications based on the analysis. Considering them, we have created this lofi design as our final prototype.
